How do most of majority Muslims see Coronavirus?

- A brief for Muslims and Non-Muslims-

(Should be posted everywhere as it could be reached to non-Muslims so that it would be guided)

Praising to God the one and the true, and peace and blessings be upon our Prophet Muhammad, the custodian Messenger, and then: -

Muslims are in danger alike those who already in because of the Coronavirus (COVID-19). But Muslims already have a characteristic belief that differs them from others, so they treat with such things with matters that distinguish them and there are seven notes should be taken into consideration.

Muslims belief involves that every decision that Allah has decided is good for people.

Didn't you see patients who aching and suffering! , how ever our belief urges them for patience due to rewarding in the Hereafter. We can also say that their illness has many good things in today's world as their illness make them not to be unfair to others for fear of the consequences of injustice, make them sympathize with others and urges them to take care of their well. So, their illness could be a reason for pushing another greater illness. However, did you ever think that illness is not pure evil and that it contains many good things?

Hence, this how Muslims see the Coronavirus and other diseases as they see it as if there's much good for them. Look, how many good things this virus cause to us, it was a reason for caring a lot about hygiene and taking precautions that would save us from a greater disease with God willing. Another reason for a sincere return to Allah, a distance from the oppression of people, and a sincere review of our souls.

One of Muslims beliefs is that Allah Almighty is the one in the uniqueness of God in managing the universe.

The Almighty said, “Surely, your Lord is Allah Who created the heavens and the earth in six Days and then rose over (Istawâ) the Throne (really in a manner that suits His Majesty), disposing the affair of all things. No intercessor (can plead with Him) except after His Leave. That is Allah, your Lord; so, worship Him (Alone). Then, will you not remember?” Surat Yunus/3. “There are also a lot of verses give same meanings”.

Look, how this universe is managed by the command of Allah, who manages everything, wish everything as he wants and eliminates people as he pleases. Look, this universe cannot be operated with unless there’s an operator. For instance, if you found a plane, there must be a manufacturer, observer and an operator. How there’s a universe like ours runs with such regularity! Don’t you think there’s no operator of it?.

Look, how people used to live in peace, well-being and reassurance!. Suddenly, all conditions have been changed, countries are disturbed, economies are collapsing. Allah is the only who decreed and there is no pushing for his rule, moreover he has great wisdom in that and he has ruled all good for us.

From what Allah has assumed on Muslims ablution and prayer five times a day and night which is a first line of defense against this virus.

Ablution and cleanliness are to prevent the virus and others. This is one of the advantages of our belief, in addition to the worldly benefits of prayer and purity as prayer has comfort and reassurance, which makes the one comfortable and happy in this today's world.

And from what our Sharia taught us is not to mingle with patients, and to prevent patients get into healthier, thus our Prophet, peace and blessings of God be upon him, taught us this from thousand four hundred and forty years.

" Then who conveyed the (mange) disease to the first one!" narrated by Muslim. "One should run away from the leper as one runs away from a lion". Narrated by Ahmed.

Now, you see how our religion took care of its followers and is keen on their health and safety in their today's world, and how to live with perfection, health and wellness. As it is not a priesthood, but it is a complete and comprehensive approach for our life.

Muslims profound belief in fate and destiny, that what God willed, and what He did not wish, was not.

Almighty said, “No disaster strikes upon the earth or among yourselves except that it is in a register [1634] before We bring it into being - indeed that, for Allah, is easy –“. Al-Hadid/22.

Muslims beliefs restrict them that everything in the universe has been put by Almighty before the universe and human were created, this belief makes them reassured and receive all God wish with calm mastermind and hearts that makes them live in peace and tranquility, unlike others who do not believe in Islam. You can find them bored and vengeful against nature - falsehood - and this is the difference between a Muslim and a non-Muslim. Therefore, the effects of this belief that is embedded in hearts of most Muslims are less suicide among them, unlike others who have annihilated suicide many of them because they do not believe in that belief.

In between these incidents, atheists remain to be in worries, confusion and dismay.

According to atheist's belief, they do only believe in the presence of things, so how they have become believers in this virus and they did not see it!

The answer would be: They saw its effect and realized its activeness.

Moreover, they have been told by those who do not doubt their sincerity.

Then they will be told: This universe has these effects, these masteries, and this regularity. Does it not indicate that there is a creator for it ?!

If they denied, for sure their opinions would be disturbed between their unbelief in an unseen God, and believing unseen virus (turmoil is evidence of their corruption).

So, we call them to believe in God, as there are a lot of which indicated to God's being and influence, as we all need Allah.
